Further Monitoring, Evaluation & Learning (MEL) Resources

African Evaluation Association

A non-profit umbrella for African Voluntary Organizations for Professional Development. It serves as a leading source of evaluation knowledge for individual evaluators in countries where national evaluation associations do not exist. It also offers capacity building on evaluation tools and methods.

BetterEvaluation.org

Global entity that takes a community approach and considers/encourages inputs from different contexts as well as having useful information and examples. They have many blogs around a range of different MEAL issues that are specific to themes and geographic areas.

Bond

BOND, the umbrella organisation for UK-based international NGOs, designed and developed a range of resources in collaboration with over 100 UK NGOs, providing tools, insights and support to maximise development organisations' effectiveness.

Intrac M&E Universe

The M&E Universe is a free, online resource developed by INTRAC to support development practitioners involved in monitoring and evaluation (M&E). It consists of a series of short papers (2-6 pages) on different subjects related to M&E and is designed for practitioners with different levels of experience and expertise, from those new to M&E who want an entry level into the subject to experienced practitioners wanting to broaden their knowledge.

Matt Haikin, Useful tech for monitoring and evaluation

A list of technological tools and resources for various MEL tasks and functions

Tools4Dev.org

An online store of templates, reviews and how-to guides for international development professionals and aid workers.

IndiKit - Counter-trafficking Monitoring and Evaluation Toolkit

This website provides MEL resources that are specific to anti-trafficking project activities. It offers common indicators and MEL tools that can be used for measuring impact across anti-trafficking projects.

Civil Society MEL Resources

Save the Children - Open University UK

Monitoring, Evaluation, Accountability and Learning (MEAL) Introductory Course (free) that has been developed with the Open University UK. This course can be accessed by anyone and only requires the user to create an account first.

Wateraid

Guide to support planning, monitoring, evaluation and Learning across the project cycle

International Institution MEL Resources

EU External Action Wiki – EXACT

A knowledge repository for EU funding partners on MEL methods. Their logframe explainer documents are very detailed and explain the processes well.

Inter-Agency Coordination Group against Trafficking in Persons (ICAT)

Toolkit for guidance in designing and evaluating counter-trafficking programmes.

International Organization of Migration

Handbook on performance indicators for counter-trafficking projects.

United Nations Development Programme

Handbook on Monitoring and Evaluating for Results.
